

To whom it may concern:

I'm currently a junior at the University of Massachusetts Lowell majoring in computer science. I'm seeking an internship for the summer of 2017 and am interested in the position of Desktop Software Intern. A position at Formlabs appeals to me because of my strong interest in 3D printing. I have experience in 3D printing and modeling from my two years of high school CADD classes. In addition, I've been working with C++ for over two years and have experience with the Boost libraries. I'm excited about working on software that will be delivered to customers.

I believe that my skills and interests would make me a good fit for your company. Thank you for your consideration.

Sincerely,
Zack Krausman
