Dear Sir or Madam:

I'm seeking a three-month or six-month internship starting the summer of 2017 and am interested in the position of Software Developer Intern. A position at IBM appeals to me because of my strong interest in working at tech related company. I've been working with C++ for over two years and have experience with the Boost libraries. Additionally, I have experience with Javascript, Python and Ruby.

I'm excited about working on software that will be delivered to customers, and believe that my skills and interests would be well utilized at your company. I look forward to talking with you further about internship opportunities at IBM. Thank you for your consideration.

Sincerely,
Zachary Krausman
